Application

External
- Most suitable for single roof tile system
- Eaves, Soffit, Garage, Basement ceiling

Internal
- Mixed & Matched with plaster ceiling as exclusive design
- Significant cost saving

Environmentally friendly and weather resistant

WPC Ceiling Panel 125MM X 12MM X 2.9 M

WPC (wood plastic composite) material is a kind of reversible recycling using biomass fibers such as saw dust as the main raw materials, using the principle of macromolecule interfacial chemistry and the characteristics of plastic filling and modification, mixing a certain proportion of plastic base materials, processing and forming by special technology.

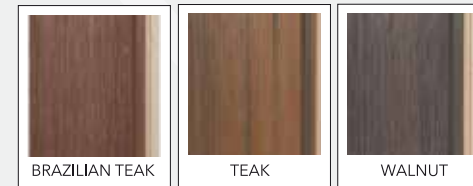

WPC Decking 150MM X 25MM X 2.8 M

Durable and resistance to wear WPC decking

High quality outdoor WPC cladding will give your design a deceptive look and extraordinary

Narrow Cladding 120MM X 12MM X 2.9 M

Easy to maintain and low water absorption

Wide Cladding 180MM X 21MM X 2.9 M
